## Multipurpose Ladder

- Two-piece aluminium rung ladder with the practical triple function: Use-able as leaning, extension ladder or free-standing ladder
- Sturdy steel guiding profiles enable the convenient extension of the ladder
- Non-slip, 2-component footcaps: The hard component ensures a strong connection of the cap with the rail; the soft component provides a strong surface stiction and prevents slipping of the ladder
- Wide-span horizontal stabilizer bar with 2-component foot caps enlarges the standing area
- Self-locking hooks prevent the unintentional detachment during use and transport
- Weatherproof safety straps prevent the unintentional detachment of the ladder parts during use
