

## Roof Ladder

- Available in aluminum, wood or aluminum/wood
- Rails are made of water-proof, glued, multi-layer laminated wood
- Heavy-duty curved rungs are made of aluminum or beech
- GS-approved through the Trade Association
- For assembly purposes the roof ladder can be secured on the roof with the ridge anti-roll bar without the use of roof hooks
- The ladders may be used only up to a roof pitch of 75°

Roof ladders,  
joining angle (pair)
