## Inspection checklist

## for mobile scaffolds (mobile working platforms) as per employers' liability insurance association provisions

In accordance with the provisions of the German Ordinance on Industrial Health and Safety (BetrSichV) Section 14 (Inspecting work equipment), the employer must ensure that work equipment, for which the safety is dependent on the assembly conditions, is inspected upon each assembly at a new building site or a new location. The purpose of this inspection is to be certain of the lawful assembly and safe function of this work equipment. In addition to this, a recurrent inspection can be undertaken to check the parts are in a legally sound condition using this series of inspection checklists.
